DEPOSIT SYSTEMS FOR ONE-WAY BEVERAGE CONTAINERS: GLOBAL OVERVIEW

2018
AUTHOR’S NOTE

This report was prepared by CM Consulting in association with Reloop Platform, and is intended to provide a comprehensive summary of 39 different deposit-return systems for one-way beverage containers in existence around the world.

CM Consulting Inc.

Working with industry, government, and not-for-profits, CM Consulting is recognized worldwide for the comprehensive information and analysis it provides – information that is relied upon to make informed policy and programming decisions. Established in 1998 by Clarissa Morawski, CM Consulting was founded on the principle that industry and consumers must assume greater responsibility for ensuring that the manufacture, use, reuse and recycling of their products and packaging has a minimum impact on the environment. CM Consulting specializes in waste minimization and Canadian stewardship policy with a specific focus on extended producer responsibility programs, cost and performance. The CM Consulting team consists of Clarissa Morawski (Principal), Jason Wilcox (Projects Manager), and Samantha Millette (Content Writer & Researcher).

Reloop Platform

Reloop is a broad platform of like-minded interests that share a common vision for a circular economy. The founding members of the organization bring together industry, government, and non-governmental organizations to form a network for advances in policy that create enabling system conditions for circularity across the European economy. With members coming from different sectors across Europe, the platform aims to work as a catalyst in order to generate economic and environmental opportunities for all stakeholders in the value chain. This includes producers, distributors, recyclers, academia, NGOs, trade unions, green regions, or cities. Reloop is born to connect stakeholders, allow for information-sharing to inform those stakeholders, and influence decision makers to adopt policy that works towards the implementation of policies and systems that promote a circular economy.

Disclaimer

CM Consulting and Reloop provide the information contained in this report in good faith, and every attempt has been made to ensure that all facts and analyses presented are as accurate as possible. The facts and data contained in this document are taken primarily from external sources, including publicly accessible annual reports released by program operators, stewardship agencies, or other involved entities. Other information was obtained through personal communication and e-mail correspondence. Users should be aware that CM Consulting or Reloop are not liable for the use or application of this research. There is no guarantee provided in respect of the information presented, and any mention of trade names or commercial products does not constitute endorsement or recommendation for use.

GLOSSARY / ACRONYMS

CALIFORNIA REDEMPTION/REFUND VALUE (CRV): Similar to beverage container deposits in other jurisdictions. See “Deposit.”

CLEARING SYSTEM: The entity responsible for reconciling the deposits paid/redeemed.

CONSUMER CONTAINER FEE: A per unit non-refundable fee paid at the point of purchase. In Saskatchewan (Canada), the fee is called an Environmental Handling Charge. In Yukon, it is called a Recycling Fund Fee, and in the Northwest Territories it is called a Container Handling Fee. In other jurisdictions, like British Columbia, it is called a Container Recycling Fee. Unlike the others which are set by the government or other responsible entity, the Container Recycling Fee represents the net cost (net of unredeemed revenue) per container type.

DEPOSIT: A fee that is charged on applicable beverage containers at the point of purchase, which retailers are required to collect from consumers. Intended to act as an incentive to recycle, deposits refunded when the consumer returns the empty container to an authorized redemption centre or retailer for recycling.

HANDLING FEE (HF): A fee that is paid to redemption centers and retailers as compensation for receiving, paying out refunds for, sorting, and storing redeemed beverage containers. On a long-term basis, handling fees also cover expenses related to investments in reverse vending machines, electricity costs, space requirements, and additional personnel required to handle the containers. The fee is often paid by the bottler or distributor, but in some cases is paid by the state (e.g. California).

HDPE: High density polyethylene (plastic)

MATERIAL OWNER: The owner of the recyclable commodity (empty containers) that can sell the material to the market or keep the material to have it converted into raw material for new bottles or cans.

PET: Polyethylene terephthalate (plastic)

PROCESSING FEE: Per unit fee paid by beverage manufacturers to system operator

PROCESSING PAYMENT: The fee offered to processors to sort and market beverage containers. It is paid on a per unit basis.

PS: Polystyrene (plastic)

PVC: Polyvinyl chloride (plastic)

R2RC: Return to Redemption Center

UNREDEEMED DEPOSITS: The value of paid deposits on containers that have not been redeemed - possibly discarded in trash/as litter, recycled through other means, or lost.
OVERVIEW

As the problem of marine litter has steadily grown worse, there has been renewed interest in deposit-return for the recovery of single-use beverage containers. These systems see customers pay a small deposit when they purchase a can or bottle, which they get back when they return the container to a collection point for recycling.

Deposit-return systems (DRS) are a proven tool to collect high quantities of empty beverage containers for reuse and high-quality recycling, and are vital to achieving a circular economy. Over 130 million people in the EU alone live in countries with deposit-systems. It’s also used in most Canadian provinces, 10 US states, and large portions of Australia. The latest jurisdiction to implement a container deposit program was New South Wales (NSW) on December 1, 2017. Other jurisdictions that have announced plans for, or that have implemented container deposit laws but whose programs are not yet operational and therefore not included in this report, include Scotland, Fiji, Guam, Turks & Caicos, Barbados, Western Australia (expected to start between 1 July 2019 and 1 January 2020), and Queensland (expected to start on 1 November 2018).

At a time when more and more jurisdictions are considering the implementation of DRS to achieve mandated recycling targets and reduce litter, CM Consulting (in association with Reloop Platform) is pleased to release the first edition of Deposit Systems for One-Way Beverage Containers: Global Overview (2016). This document provides a comprehensive summary of 39 deposit systems in different jurisdictions around the world.

Each deposit market profiled in this review is structured along the following key parameters (where information is available):

- Mandate (legal basis for the system)
- Program Scope (beverages and containers included in the system)
- Deposit and Fees (deposit amounts and different fees)
- System Operator (composition and tasks of the System Operator)
- Redemption System (beverage container take-back system)
- System Results (return rates)
- Money Material Flow (visual flow chart)

It is worth noting that all systems, with the exception of California (USA) and most Canadian provinces (Saskatchewan, Yukon, New Brunswick, Nova Scotia, Newfoundland, Northwest Territories, Ontario, Manitoba, and Prince Edward Island) have barcode-based recording systems. ‘Barcode-based’ means that the containers are recognized by the barcode and the information is recorded. This makes every container traceable and provides a clear picture on what is returned.

Information for this report was obtained from system operators, internal documents, government reports, as well as consultancy reports and includes the following sources: AB Svenska Returpack, Endurvinsli HF, Suomen Palautuspakkaus Oy Palpa, Norsk Resirk AS, Dansk Retursystem A/S, Deutsche Pfandsystem GmbH, Eesti Pandipakend UÜ, Stichting Retourverpakkingen NL, Recycling Netwerk, Retorna, Zero Waste Scotland, Container Recycling Institute, CM Consulting, ELA Recycling Corporation, Environmental Protection Agency (EPA) South Australia, AluPro.

MANDATE

Ordinance on Packaging and Packaging Waste
Enacted: 2005
Implemented: 2006

2015 Comprehensive amendment act
(approved and published in summer 2015; not yet implemented)

Authority: Ministry of Environment
Target: 95% collection target

PROGRAM SCOPE

Material: Plastic (predominantly PET), metal (aluminum/tinplate), glass
Beverage type: Juices; mineral water; other waters; beer; wine; hard liquor and milk drinks in volume < 0.2l
Excluded: Dairy products

DEPOSITS AND FEES

Deposit: Initiated by Producer/Importer
Deposit value: 0.5 HRK (0.066€, USD$0.07)
Unredeemed deposits: Government Recycling Fund
Handling Fee (HF): 0.12 HRK (€0.02, USD$0.02) for RVM accepted containers (25% VAT included); 0.10 HRK (€0.01, USD$0.01) for manually accepted containers (25% VAT included)
Transport Fee: ≤ 100 km: 100 HRK/t (€13.29/t, USD$14.82/t)
100-200 km: 200 HRK/t (€26.58/t, USD$29.60)
200-300 km: 300 HRK/t (€39.87/t, USD$44.40)
≥ 300 km: 400 HRK/t (€53.16/t, USD$59.20)

Retailer responsible for organizing the transport of collected PET containers and cans to one of 24 authorized waste packaging management centers. Glass bottles go directly to recyclers.

SYSTEM OPERATOR

Clearing System: Centralized
System Operator & Administrator: Environmental Protection and Efficiency Fund (Government Operated)

REDEMPTION SYSTEM

Return to Retail: Retailers ≥ 200 m² are obliged to take back. Collection is mostly manual. Retailers must sort containers by material type (50 PET bottles in yellow bags; 100 aluminum and/or steel cans in grey
bags; 40 glass bottles in green bags). If retailer uses RVMs, then big bags can be used for PET bottles (200) and cans (800).

Material owner: Environmental Protection and Efficiency Fund

SYSTEM RESULTS (2016)
Total Return Rate: Up to 87%

MANDATE
Statutory Order on Deposits and Collection of Packaging for Beer and Certain Soft Drinks
Enacted: 2000
Implemented: 2002
Last Updated: 2007
Authority: Ministry of Environment
Target: 95% collection target

PROGRAM SCOPE
Material: Plastic (predominantly PET), metal (aluminum), glass
Beverage type: Beer (alcohol content > 0.5% by volume); carbonated soft drinks (alcohol content of 0–0.5%); energy drinks; mineral water; iced tea; ready-to-drink beverages (incl. lemonade, alcopops, energy drinks and cider products); mixer products where spirits, wine or other fermented products are mixed with other beverages such as soft drinks, cider, chocolate or juice (alcohol content 0.5% - 10%)
Excluded: Fruit squash, juice, cocoa, wine and spirits, milk

DEPOSITS AND FEES
Deposit: Initiated by Producer/Importer
Deposit value:
- Metal, glass, plastic < 1l: 1 DKK (€0.13, USD$0.15)
- Plastic 0.5l: 1.5 DKK (€0.2, USD$0.22)
- Metal, glass, plastic ≥ 1l: 3 DKK (€0.4, USD$0.45)
Unredeemed deposits: Dansk Retursystem A/S (remains partly in system for improvement and partly donated to charity)
Handling Fee (HF):
Manual collection:
- Metal: 6.2 øre (€0.008, USD$0.01)
- Plastic < 1l: 6.7 øre (€0.009, USD$0.0097)
- Plastic > 1l: 10.4 øre (€0.014, USD$0.015)
- Glass: 14.8 øre (€0.019, USD$0.0214)
RVM with compaction:
- Metal: 1.4 øre (€0.0019, USD$0.0020)
- Plastic < 1l: 1.8 øre (€0.0019, USD$0.0026)
- Plastic > 1l: 2.4 øre (€0.0032, USD$0.0035)
- Glass: 7.1 øre (€0.0095, USD$0.0103)
Producer administration fee:
- Plastic: €0.02822 (USD$0.03) - €0.03628 (USD$0.04)
- Can: €0.01209 (USD$0.01) - €0.05510 (USD$0.06)
- Glass: €0.05510 (USD$0.06) - €0.9273 (USD$1.04)
SYSTEM OPERATOR

Clearing System: Centralized
System Operator & Administrator: Dansk Retursystem A/S

Dansk Retursystem A/S is a private non-profit organization that has been granted the exclusive right to operate the Danish deposit return system through to 2013, as approved by Statutory Order no. 1129 (in Danish only) from the Danish Ministry of the Environment.

System Finance: Material revenue/unredeemed deposits/administration fee

REDEMPTION SYSTEM

Return to Retail: Nearly 6,000 redemption locations. Collection system is 95% automated / 5% manual
Material owner: Dansk Retursystem A/S

SYSTEM RESULTS (2016)

MANDATE

Packaging Act
Enacted: 2004
Implemented: 2005
Authority: Ministry of Environment
Target: PET and one-way glass (deposits) - 85% recycling of the total mass of packaging waste per calendar year
Can (deposits) - 50% recycling of the total mass of packaging waste per calendar year

PROGRAM SCOPE

Material: Plastics (mainly PET), metals (aluminum/steel), glass
Beverage type: Soft drinks; water; beer; cider; juice; juice concentrates; nectars; low-ethanol alcoholic beverages (up to 6% volume)
Excluded: Strong alcoholic beverages (vodka, wine, etc); glass jars; Tetra Pak

DEPOSITS AND FEES

Deposit (initiated by Producer/Importer):
Metal, plastics, glass (all sizes): € 0.10 (USD$0.11)
Unredeemed deposits: Eesti Pandipakend OÜ (producer responsibility organization)
Retail Handling Fee:
Manual collection (PET/Can) €0.0105/packaging unit + VAT
Manual collection (one-way glass) €0.0120/packaging unit + VAT
RVM without compaction (PET/Can) €0.0215/packaging unit + VAT
RVM with compaction (PET/Can) €0.0310/packaging unit + VAT
RVM collection (one-way glass) €0.0234/packaging unit + VAT
SYSTEM OPERATOR

Clearing System: Centralized
System Operator & Administrator: Eesti Pandipakend OÜ

System Finance: Material revenue, unreredeemed deposits, packages handling fee

REDEMPTION SYSTEM

Return to Retail
Retailers selling deposit containers are required to take back the containers on their premises. If retailer sales area is over 200m² it is a must, if it is between 20-200m², retailer can apply to get freedom from that obligation, that is analyzed and decided by the local municipality. Urban vendors under 20m² of sales area are not obligated to take back deposit containers. Collection system is 94% automated / 6% manual.

Material owner: Eesti Pandipakend OÜ

SYSTEM RESULTS (2017)

MANDATE

Beverage Container Recycling Regulation
Enacted: 1972
Implemented: 1972
Last Updated: 2008
Authority: Beverage Container Management Board (BCMB)
Target:
No official target; however the BCMB’s 2015-2017 Business Plan includes an overall collection target of 83.7% for 2014. The BCMB has also set targets by container type (e.g. 90.6% for non-refillable glass and 87.2% for aluminum). Overall collection targets have also been set for 2015 (83.4%), 2016 (84.2%), and 2017 (85.0%).

PROGRAM SCOPE

Material:
Plastics (PET, HDPE, PVC, PS); metal (aluminum/tinplate); glass; gable top; Tetra Pak; bag-in-box; drink pouch; all sealed containers

Beverage type:
All (alcoholic and non-alcoholic), including milk (first jurisdiction in North America to include milk)

Excluded:
None

DEPOSITS AND FEES

Deposit (initiated by Producer/Distributor/Importer)
All containers ≤1l: CAD$0.10
All containers > 1l: CAD$0.25
Unredeemed deposits: Retained by Producer/Distributor/Importer

Handling Fee: CAD$0.0317 to CAD$0.2279 (Regulated by government and payable by a manufacturer or collection system agent to collection depots)

Container Recycling Fee: CAD$0.00 to CAD$0.10 (non-refundable and based on a non-for-profit formula)

SYSTEM OPERATOR

Program Operator: Alberta Beverage Container Recycling Corporation (ABCRC) (non-alcohol)
Brewers Distributor Ltd. (BDL) (Beer)

Steward: ABCRC (non-alcohol)
Alberta Beer Container Corporation (ABCC) (Beer)
Alberta Gaming and Liquor Commission (AGLC)
The ABCC acts as a collection service provider for beer manufacturers and is responsible for ensuring that beer containers are collected, transported, processed, and recycled as per the requirements of the regulation. ABCC subcontracts the management of beer that is in non-refillable containers (all one-way glass and aluminum beer containers) to the ABCRC.

The AGLC represents the producers of alcohol. AGLC uses ABCRC to manage its wine and spirit containers and the ABCC to manage its beer containers. ABCC is responsible for ensuring that all beer containers are collected, transported, processed, and recycled as per the requirements of the regulation.

System Finance: Material revenue / Unredeemed deposits / Container Recycling Fee

**REDEMPTION SYSTEM**

<tr>
<td>Authority:</td>
<td>Ministry of Environment</td>
</tr>
<tr>
<td><strong>Target:</strong></td>
<td><em>Recycling Regulation</em> establishes a 75% minimum collection target &amp; requires that redeemed containers are recycled or refilled</td>
</tr>
</tbody>
</table>

## PROGRAM SCOPE

**Material:** Plastics (PET, HDPE, PVC, PS); metal (aluminum/tinplate); bi-metal; glass; paper; gable top; Tetra Pak; drink pouch; bag in box; all containers accepted for beverages

**Beverage type:** All ready-to-drink beverages (non-alcoholic beverages, wine, spirits, beer) that is or was sealed by its manufacturer

**Excluded:** Milk; milk substitutes; rice milk; soya milk; flavoured milk; infant formulas; meal replacements; dietary supplements

## DEPOSITS AND FEES

**Deposit:** Initiated by Producer/Distributor/Importer

**Deposit value:**
- Non-alcohol ≤1l: CAD$0.05  
- Non-alcohol >1l: CAD$0.20  
- Wine & spirit ≤1l: CAD$0.10  
- Wine & spirit >1l: CAD$0.20  
- Beer bottles ≤1l: CAD$0.10

**Unredeemed deposits:** Producer/Distributor/Importer

**Handling Fee:** CAD$0.027 to CAD$0.1127 paid by Encorp Pacific (Canada) and Brewers Distributors Ltd. (BDL) to authorized depots and contracted retailers. Bottle depots independently negotiate HF’s directly with the beer industry. HF’s fluctuate depending on the cost to collect and process each type of container.

**Container Recycling Fee (CRF):** CAD$0.00 to CAD$0.40 (calculated on an annual basis and based on net cost of collection and recycling of specific containers)

## SYSTEM OPERATOR

**Program Operator:** Encorp Pacific & BDL  
**Steward:** Encorp Pacific & BDL

Encorp Pacific (Canada) represents brand owners of non-alcoholic beverages, wine, spirits, some ciders, and coolers, as well as some import beer manufacturers. BDL represents brand owners of domestic coolers, beers, and ciders, and it collects the containers of both these domestic distributors and outside distributors who import.

**System Finance:** Material revenue, unredeemed deposits, Container Recycling Fee
REDEMPTION SYSTEM

Return-to-Retail/Return to Depot
1,430 return locations.
78% of population live within a 2km radius of a BDL depot

Encorp Pacific:
(Non-alcohol, wine, spirits, cider, and imported beer)
172 independent depots and hundreds of retail outlets
Manages about 90% of recovered beverage containers province-wide (the balance is covered by retailers)

Brewers Distributor Ltd.:
(domestic beer, coolers and cider)
Provides for retail returns at a total of 1,144 locations including
656 private liquor stores, 196 government-run liquor stores, 220 rural agency stores, and 72 independent depots.
Manages about 29% of recovered containers province-wide

MANDATE

Used Beverage Container Recycling Program
Enacted: 1996
Implemented: 1997
Last Updated: 2003
Authority: Ministry of Environment
Target: No official collection target

PROGRAM SCOPE

Material: All containers ≤5l: Plastics, metal (aluminum/tinplate), bimetal, glass, gable top, Tetra Pak, drink pouches

Beverage type: All ready-to-drink beverages (non-alcoholic beverages, wine, spirits, non-refillable beer). Only milk products with the word “beverage” on the label are covered under the program.

Excluded: Milk and milk substitutes, infant formula, refillable bottles (including domestic beer bottles), concentrated liquids, medicinal/nutritional supplements, containers > 5l), refillables

DEPOSITS (Half Back) AND FEES

Half-Back Deposit: Initiated by Producer/Distributor/Importer

Deposit value: Non-alcohol: CAD$0.08/ $0.05*
Wine & spirit (any size): CAD$0.20 / $0.10*
Beer cans & importer bottles ≤1l: CAD$0.08 / $0.05*

Unredeemed deposits: Retained by Multi-Materials Stewardship Board (MMSB)

Handling Fee: CAD$0.0425

*Part of the revenue generated from the non-refunded portion of the deposit ($0.03 for non-alcoholic containers, beer cans and imported bottles and $0.10 for alcoholic containers) is used to pay for the cost of the recycling program, including administration, handling, transportation, and processing costs. Money from unredeemed beverage container deposits, as well as revenue generated from the sale of material, also goes towards paying for the program.

SYSTEM OPERATOR

Program Operator: MMSB
Steward: MMSB

The MMSB is a crown corporation established pursuant to the Environmental Protection Act and accompanying Waste Management Regulations. This board manages the Used Beverage Container Recycling Program and is mandated to support and promote the protection, enhancement, and wise use of the environment through waste management programs. By law, beverage distributors and retailers are obligated to register with and
remit deposits charged on the sale of all beverage containers to MMSB. Green Depots must also register with MMSB.

System Finance: Material revenue, unredeemed deposits, half-back (goes into Waste Management Trust Fund)

REDEMPTION SYSTEM

Return to Depot: 40 main depots, 16 sub-depots, and 20 mobile collection services

Material owner: MMSB

NEW BRUNSWICK

Population: 0.75m

Website: www2.gnb.ca/content/gnb/en/services/services_renderer.3975.Beverage_Container_Program.html

MANDATE

Beverage Container Act
Enacted: 1991
Implemented: 1992
Authority: Department of Environment
Target: Unofficial collection rate of 80%

PROGRAM SCOPE

Material: Plastics, metal (aluminum/tinplate), bimetal, glass, gable top Tetra Pak, all beverage containers ≤ 5l
Beverage type: All ready-to-drink beverages (non-alcoholic beverages, wine, spirits, non-refillable beer)
Excluded: Milk; milk products; unpasteurized cider

DEPOSITS (Half Back) AND FEES

Deposit: Initiated at Producer/Distributor/Importer
Deposit value: Non-alcohol: CAD$0.10 / CAD$0.05*  Beer cans & bottles, wine & spirits ≤ 500ml: CAD$0.10 / CAD$0.05*  Beer cans & bottles, wine & spirits > 500ml: CAD$0.20 / CAD$0.10*
Unredeemed deposits: Encorp Atlantic and New Brunswick Liquor (Alcool NB Liquor)
Handling Fee: CAD$0.0406

*Under New Brunswick’s half-back system, consumers receive only half of their deposit back when they return non-refillable containers. Fifty-percent of this “half-back” revenue (2.5- or 5-cents depending on container size), plus the revenue generated from unredeemed deposits and from the sale of material, is used to pay for program costs. The remaining 50% of the “half-back” revenue goes into the province’s Environmental Trust Fund where it is used for environmental conservation, education, protection, and other provincial environmental initiatives aimed at reducing waste.

SYSTEM OPERATOR

Program Operator: Encorp Atlantic (Non-alcoholic), Rayan Industries (Alcohol)
Steward: Encorp Atlantic (Non-alcoholic), Alcool NB Liquor (Alcohol)

Encorp Atlantic manages the collection of non-alcoholic beverage containers on behalf of brand owners. It collects the containers from depots, ships materials for processing, and markets these materials. Encorp is also responsible for collecting deposits from the distributors, and reimbursing the redemption centers for the refunds paid out.
Alcool NB Liquor is responsible for collecting alcoholic beverage containers (wine, beer, spirits, and coolers), and it contracts the transportation and processing of these containers to Neighbourhood Recycling (Rayan Investments Ltd.).

System Finance: Material revenue, unredeemed deposits, 50% of half-back

REDEMPTION SYSTEM

Return-to-Depot: 72 licenced depots (individually owned and operated)
Material owner: Encorp Atlantic and Alcool NB Liquor

SYSTEM RESULTS (2014-15)

<table>

Unredeemed deposits: Retained by ENR

Depot Handling Fee (DHF): CAD$0.022 - CAD$0.045
Processing Handling Fee (PHF): CAD$0.02 - CAD$0.045

At the point of purchase, the customer is charged a refundable deposit and a non-refundable CHF. CHFs vary by type of container and container size, and are based on the estimated costs to collect, process, and transport beverage containers and to administer the program. These fees, along with unredeemed deposits and material revenues, are used to pay for the program.

SYSTEM OPERATOR

Program Operator: ENR (Government Operated)
Steward: ENR
The program is overseen by the ENR. The ENR administers the program by enforcing the act and the regulations, coordinating and supporting local depots and regional processing centres, coordinating public information, improving the program, and undertaking audits or checks on distributors, importers, stores, depots, and processing centres.

System Finance: Material revenue, unredeemed deposits, Container Handling Fee (includes DHF and PHF)

MANDATE
Ontario Deposit Return Program
Enacted: 2006
Implemented: 2007
Authority: Liquor Control Board Ontario (LCBO)

PROGRAM SCOPE
Material: Plastics, metal (aluminum/tinplate), bimetal, glass, gable top, Tetra Pak, bag-in-box, all beverage containers
Beverage type: Wine, spirits, imported beer
Excluded: Non-alcoholic beverages, containers with a volume of ≤100ml containers purchased at duty-free stores

DEPOSITS AND FEES
Deposit: Initiated by Producer/Distributor/Importer
Deposit value:
Wine & spirit ≤ 630ml: CAD$0.10
Wine & spirit > 630ml: CAD$0.20
Beer cans & bottles ≤1l: CAD$0.10
Beer cans & bottles > 1l: CAD$0.20
Unredeemed deposits: Retained by beer distributor/bottlers and the Liquor Control Board of Ontario (LCBO)
Handling Fee: Proprietary

The LCBO is obligated to reimburse The Beer Store (TBS) for all deposit refunds that TBS pays out to consumers who return wine, spirit, and imported beer containers that are not sold at TBS; it is also required to pay TBS a per unit service fee for these containers. A contract with TBS, in effect since February 2012, sets the fee at 10.5-cents for 2016.

Brewers pay a handling fee to TBS based on the type of container. These rates are proprietary.

SYSTEM OPERATOR
Program Operator: TBS
Steward: LCBO (wine, spirits); TBS (beer)
System Finance: Material Revenue, unredeemed deposits, government revenue

REDEMPTION SYSTEM

 Target: 75% collection target for soft drinks / 75% collection target for beer

PROGRAM SCOPE

Material: Plastics, metal (aluminum/tinplate), bimetal, glass (all containers for accepted beverages)

Beverage type: All non-refillable beer and carbonated soft drinks (all beverages that contain water with essence of flavour)

Excluded: Energy drinks; water; juice; wine; spirits; milk

DEPOSITS AND FEES

Deposit: Initiated by Producer/Distributor/Importer

Deposit value:
- Soft drink containers & beer cans ≤ 450ml: CAD$0.05
- Non-refillable beer > 450ml: CAD$0.20

Unredeemed deposits: Retained by Recyc-Québec & distributors/bottlers (finances handling fee)

Handling Fee: CAD$0.02

SYSTEM OPERATOR

Program Operator: Beverage Industry
Beer Industry

Steward: Boissons Gazeuses Environnement (BGE) (Non-alcoholic)
Québec Brewers Association (QBA) (Beer)

In 1990, the Québec government established the Société Québécoise de récupération et de recyclage, giving the Société (Recyc-Québec) regulatory authority for the program. Recyc-Québec is responsible for the promotion and development of reduction, reuse, recovery, and recycling of containers and packaging in Québec. Its main responsibility is program oversight.

In 1999, BGE—a non-profit organization established by the Québec soft drink industry—took over Recyc-Québec’s responsibility for collecting non-refillable soft drink containers. Brewers are responsible for running the system for beer bottles and cans.

System Finance: Material revenue, unredeemed deposits, Handling Fee
REDEMPTION SYSTEM

Return-to-Retail: Approx. 10,000 retail locations. By law, anyone that sells these containers must take them back. Collection system is 70% automated/30% manual.

Material owner: Producer/Distributor/Importer

MANDATE
Beverage Container Collection and Recycling Program
Enacted: 1978
Implemented: 1988
Last Updated: 1999
Authority: Ministry of Environment

PROGRAM SCOPE
Material: Plastics, metal (aluminum/tinplate), bimetal, glass, gable top, Tetra Pak, all beverage containers
Beverage type: All ready-to-serve drinks (non-alcoholic beverages, wine, spirits, beer in non-refillable containers)
Excluded: Frozen juice concentrates, baby juices, foil pouches, meal replacements, dietary supplements

DEPOSITS AND FEES
Deposit: Initiated by Producer/Distributor/Importer
Deposit value: Metal < 1l: CAD$0.10
Metal ≥1l: CAD$0.25
Glass ≤ 300ml: CAD$0.10
Glass 301ml to 999ml: CAD$0.20
Glass ≥1l: CAD$0.40
Plastic <1l: CAD$0.10
Plastic ≥1l: CAD$0.25
Juice boxes / gable top cartons: CAD$0.05
Unredeemed deposits: Retained by Provincial Government
Handling Fee: No handling fees (SARCAN receives provincial grants)
Environmental Handling Charge (EHC): Aseptic CAD$0.03, polycoat CAD$0.03, metal CAD$0.05, plastic CAD$0.06, non-refillable glass CAD$0.07

SYSTEM OPERATOR
Program Operator: SARCAN Recycling

The Saskatchewan Association of Rehabilitation Centres (SARC) has a recycling division known as SARCAN Recycling, which administers the program. SARCAN operates under contract to the Saskatchewan Ministry of Environment.

System Finance: Material revenue, unredeemed deposits, provincial grants, Environmental Handling Charge
REDEMPTION SYSTEM

Return to Depot: 72 SARCAN licensed depots

MANDATE
Beverage Container Regulation
Enacted: 1991
Implemented: 1992
Last Updated: 2009
Authority: Environment Yukon

PROGRAM SCOPE
Material: Plastics, metal (aluminum/tinplate), bimetal, glass, gable top, Tetra Pak, all beverage containers
Beverage type: All ready-to-drink beverages (non-alcoholic beverages, wine, spirits, non-refillable beer, milk and milk substitutes)
Excluded: Canned coconut milk; canned condensed or evaporated milk; canned whipping cream; powdered drink crystals; juice concentrates; liquid meal replacement; infant formula

DEPOSITS AND FEES
Deposit: Initiated by Producer/Distributor/Importer
Deposit value: Containers ≥ 750ml: CAD$0.35 / CAD$0.25
Containers < 750ml: CAD$0.10 / CAD$0.05
Milk and milk substitutes (all sizes): CAD$0.10 / CAD$0.05
Unredeemed deposits: Retained by government
Handling Fee: CAD$0.025 – CAD$0.075
Recycling Fund Fee (RFF): CAD$0.05 – CAD$0.10
Processing Fee (PF): Paid to processing facilities for each container received (N/A)

When purchasing beverages, the consumer pays a deposit, which includes a refundable portion and a non-refundable RFF. Consumers receive a refund when they return the empty containers to a registered recycling depot. The non-refundable RFF is collected by the retailer and goes into a recycling fund that is administered by the government. Unredeemed deposits also go into this fund.

SYSTEM OPERATOR
Program Operator: Department of Community Services (Yukon Government)

MANDATE
Waste Management and Resource Recovery Amendment Act 2017
Enacted: 2017
Implemented: June 30, 2018
Authority: Transport Canberra and City Services

PROGRAM SCOPE
Material: Containers 150ml-3L: aluminum, glass, HDPE, liquid paperboard, PET, steel
Beverage type: All
Excluded: Wine; spirits; cordial and plain milk (or milk substitute) containers; flavored milk containers of ≥1L; pure fruit or vegetable juice containers of ≥1L; glass containers for wine and spirits; casks for wine or water ≥1L; sachets for wine of ≥250ml; containers for cordials and concentrated fruit/vegetable juices; registered health tonics

DEPOSITS AND FEES
Deposit: AUD$0.10 (€0.07, USD$0.08)
Unredeemed deposits: Remains with the beverage industry
Handling Fee: For every container returned through the collection infrastructure, the Network Operator receives a fee to cover the costs for the collection points, the logistics, counting centers and administration, as well as adding a certain margin. The value of this fee has not been made public.
Producer costs per container for the first three months of operation, including the 10cent deposit ($A0.10), based on overall recovery of between 70-72%, are $A0.0994, $A0.10192 and $A0.10455

SYSTEM OPERATOR
Clearing System: Hybrid – System Coordinator invoices the individual fillers, beverage producers, and importers
System Operator & Administrator: Exchange for Change is the System Coordinator, responsible for financial management and ensuring that the scheme meets its
statewide access and recovery targets. The Network Operator is Re
Turn-It, which will set up and run the collection points, including
utilising their existing MRF as a consolidation and collection point.

System Finance: Industry fee and material value

**REDEMPTION SYSTEM**

| Return to Depot/social enterprise/MRF: | Collection network is predominantly manual depot based with a
government preference for ‘face-to-face’ drop off facilities,
replicating the Sth Australian scheme; as well as charity sector shop
front drop offs and other social enterprise involvement. An
additional three automated sites across the territory are also
expected over time. Kerbside redemption will also be possible in
which case the consumer forfeits the deposit and this is acquired by
the MRF. |

MANDATE

Environment Protection (Beverage Containers and Plastic Bags) Act
Enacted: 2011
Implemented: 2012
Updated: 2014
Authority: Environment Protection Authority

PROGRAM SCOPE

Material: All

Beverage type:

Containers <1l: flavoured milk; pure fruit/vegetable juice; water in aseptic packs/casks; some wine-based beverages

Containers ≤3l: carbonated soft drinks; non-carbonated soft drinks (including but not limited to: fruit/juice based drinks containing < 90% juice, sports drinks, vitamin drinks, energy drinks, ready-to-drink cordials), water that is not in an aseptic pack/cask; beer/ales/stouts/cider; spirit-based beverages; some wine-based beverages

Excluded: Unflavored milk; soy milk; cordial bottles (undiluted); concentrated fruit and/or vegetable juice intended to be diluted before consumption; still or sparkling wine (in glass)

DEPOSITS AND FEES

Deposit: AUD$0.10 (€0.07, USD$0.08)

Unredeemed deposits: Remains with producer/filler

Handling Fee: Negotiated. Depots may be compensated for “reasonable costs” related to handling the containers by the CDS coordinator to whom they deliver the container.

SYSTEM OPERATOR

Clearing System: Decentralized
System Operator & Administrator: Beverage industry and private operators
System Finance: Administration Fee/Unredeemed deposits/Material scrap

REDEMPTION SYSTEM

Return to Depot: 11 authorized collection depots, one of which ended operations in November 2014

Material owner: CDS Coordinators
CDS coordinators coordinate the activities of those involved in the deposit return scheme and have arrangements with depots across the Territory. They coordinate the return of empty containers from collection depots, reimburse depots for refunds paid to consumers, and pay depots a handling fee, sell the containers to material recyclers and processors for recycling, reuse or recovery of energy. CDS coordinators, in turn, claim the deposit and handling fee from the beverage filler. As of 2017, four CDS coordinators are approved to operate under the CDS: Envirobank NT Pty Ltd.; Marine Shores Pty Ltd.; NT Coordinators Pty Ltd.; and Can-Recycling (SA) Pty Ltd. trading as Statewide Recycling.

MANDATE
Beverage Container Act
Enacted: 1975
Implemented: 1977
Authority: Environmental Protection Agency

PROGRAM SCOPE
Material: Glass, aluminum, HDPE, PET, liquid paperboard
Beverage type: *Container types < 1l*: Water in aseptic packs/casks; pure fruit/vegetable juice (containing at least 90% fruit juice and/or vegetable juice); flavoured milk; wine in aseptic packs/casks; flavoured alcoholic beverages with a wine base in aseptic packs/casks

*Container types ≤ 3l*: Carbonated soft drinks; non-carbonated soft drinks, water (plain, still or carbonated); Beers/ales/stout, wine based beverages (wine cooler and similar beverages), spirit-based beverages, alcoholic beverages (derived from the fermentation of fruit)

Excluded: Wine in glass bottles; plain, unflavoured milk; concentrated fruit and/or vegetable juice intended to be diluted before consumption; cordial (undiluted)

DEPOSITS AND FEES
Deposit: Initiated by Producer/Distributor/Importer
Deposit value: AUD$0.10 (€0.07, USD$0.08)
Unredeemed deposits: Remains with producer/filler
Handling Fee: Negotiated between producer/super collector

SYSTEM OPERATOR
Clearing System: Decentralized
System Operator and Administrator: Beverage Industry
System Finance: Administration Fee/Unredeemed deposits/Material scrap

REDEMPTION SYSTEM
Return to Depot: 132 licensed depots
Material owner: Super Collectors

The various container types and brands are sorted and prepared at the collection depots across the state for processing by the ‘super collectors’. The super collectors act as agents for the beverage industry. They
coordinate the return of empty containers from collection depots, reimburse depots for refunds paid to consumers, and pay depots a handling fee, sell the containers to material recyclers and processors for recycling, reuse or recovery of energy. The super collector in turn claims the deposit and handling fee from the beverage filler.
