Perspectives for setting-up a DRS addressing
Single-Use Beverage Packaging

2018 – DRS legislation

Context

2018 Romania introduced very ambitious legislation.

Standard DRS Legislation

GEO 74/2018

Establishes detailed provisions for DRS on reusable packaging:

- Deposit value
- Producers & Retailers obligations

DRS implementation time line for one-way packaging is defined but details regarding system framework or functionality are not specified.

Industry takes responsibility

for knowledge building and DRS impact assessment.

Feasibility study structure

1. LOCAL CONDITIONS

Country initial assessment –
waste management systems
Beverage products market
Retail infrastructure
Legal framework
DRS stakeholders mapping

2. DRS DESIGN

Central DRS organization
establishment
DRS financial model based on
country data
DRS related law(s) creation
DRS processes description and
business plan
DRS working logic and basic
functions

3. DRS IMPACT

Impact on households and consumers
Impact on producers, retailers, recyclers
Expected influence on informal collectors'
Impact on EPR schemes
Expected environment results

Multinational consortium with broad DRS expertise

GLOBAL CENTER OF DRS EXPERTISE

European Centre of DRS expertise
Global overview
Broad network of stakeholders

OPERATIONAL KNOWLEDGE

DRS practical experience
Strategies for optimal DRS
implementation and operation
Control mechanisms and fraud
prevention

ANALYTICAL AND OPERATIONAL EXPERTISE

Independent environmental consultancy
Global DRS expertise
Waste operations experience
Developed roadmap for Romania to meet
EU waste targets

STRATEGIC APPROACH LOCAL KNOWLEDGE

Deep Local knowledge
Strategic business management
Circular Economy business models

DRS Project Working group
